

Personal Adopter

We understand that people have busy lives, but sometimes those lives feel incomplete without an animal companion. A Personal Adopter can help with that. A Personal Adopter assists customers with a level of individualized attention and service beyond the normal adoption process. For a small fee of \$75 you will receive:

- ✦ Individual attention by your very own adoption counselor.
- ✦ A commitment to animal friends and the people who love them.
- ✦ The best match based on your personal needs and lifestyle.
- ✦ Research on available information regarding possible animal matches.
- ✦ The chance to schedule appointments, thus ensuring the best use of your time.
- ✦ Extensive animal behavior knowledge.

When choosing an animal the Personal Adopter will compare your needs, desire to train, personal activity level, and lifestyle with the corresponding traits of the adult dogs and cats in our facility. By tailoring the adoption process to better suit your needs, we are confident we can find you a friend for life.
