

Kibble Connection

Since the MD SPCA opened the Kibble Connection pet food pantry, we've received hundreds of grateful messages from pet parents in our community.

These pet parents are bartenders, community cat caregivers, graduate students, senior citizens, teachers, and veterans. They all agree on one thing—our pets are our family.

Here are just a few of their heartwarming messages of thanks.

Kibble Connection

“The help you guys have provided for my family really meant a lot. I’ve been unemployed since the pandemic. And where the community and the government and another outreach program help a lot, sometimes they forget about our four-legged family members. With this help, I was able to feed him without worrying about harming his belly with any type of food. Thank you again. We appreciate everything.”

“I did all I could for my kitty and then because of this pandemic I was placed on furlough. I didn’t know what I was going to do. I saw on Facebook about the Maryland SPCA helping animals in need of food. The people who donated pet supplies are all truly angels. My kitty has grown so much thanks to the food you guys gave to me in my time of need. Thanks.”

Kibble Connection

“Things are such a mess right now! I’m so focused on feeding my family and our animals are loved as much as our human children are! Thank you all for doing everything you can to help families like mine!”

“I have lost my two jobs temporarily due to COVID. I have no unemployment as of yet to take care of my family and my funds are almost depleted. These animals are also family and they depend on me. God bless you and thank you!”

“I was a bartender, and I am not working as of now. I have not received a stimulus payment. I can get food from churches but I need assistance with dog food for my baby. This is such a blessing.”

MARYLAND SPCA

Kibble Connection

“I am out of work on workers’ compensation. I had to pay a large bill because the power was off and rent has gone up. Money has gotten very tight. My fur babies will eat before me. They are my world. Thank you.”

MARYLAND SPCA

Kibble Connection

“I’m a single mother of two children and I’m looking for work. I can barely afford to put food on the table for my children. My fur babies are very much a part of this family and they’d be devastated if they had to be rehomed and so would my children and I.”

“I am a retired senior, age 74. I live alone. My cat is my long-time companion of about seven years now. Buying food for us both is becoming more difficult. I am trying to keep her, but I need the pet food help very much. Again, thank you.”

Kibble Connection

“I would like to thank the Maryland SPCA and the donors for this program. Being on a fixed income, this has helped to alleviate the stress and worries of not being able to feed my cats, particularly during the COVID-19 pandemic. I am also a veteran, and having my pets really helps me cope. I would be very sad if I didn't have the means to keep them.

Once again, thank you for providing an invaluable service and kindness.”

“I lost my job and I need help feeding my beautiful rescued pup. I will not rehome him. We have been together for seven years now and it would break both of our hearts. He is part of my family. He is my fur baby.”
