

## How to make a Cat Scratchboard

### Materials:

- Cardboard boxes
- Ruler
- Exacto knife or heavy-duty scissors
- Duct tape, masking tape, or hot glue gun

### Step 1

Cut cardboard into 4" wide strips. Cut so that the ridges are going horizontally across the strips.

### Step 2

Roll the cardboard into a tight coil. Tape or glue it closed so it stays tightly closed.

### Step 3

Continue to wrap the cardboard tightly around the coil until you have the size you'd like, keeping the coils tight together. Be careful to keep the edges even.

### Step 4

Tape or glue the entire outside edge of the large coil to ensure it stays together.

### Step 5

Donate to your local animal shelter or give to your cat!
